Kharar Mohali, Punjab

Education

(2024 -2026)

CHNDIGARH UNIVERSITY, PUNJAB

MCA - AIML

CGPA - 6.7

(2021 -2024)

ANS COLLEGE, BARH PATNA

BCA

68%

Certificates

- Infosys Springboard – Angular, ReactJS, Basic C# Programming
- Tata Forage – GenAI Powered Data Analytics Job Simulation
- Kraf Technologies – Hackathon Participation
- IBM Skills Build – Use Generative AI for Software Development

Language

- English
- Hindi

TECHNICAL COMPETENCIES:

- **Machine Learning & AI:** Deep Learning, NLP, TensorFlow, Scikit-learn, Pandas, NumPy
- **Web Development:** Flask, Django, HTML, CSS, JavaScript
- **Mobile Development:** Kotlin (Jetpack Compose), Retrofit, Room
- **Database:** MySQL, SQLite
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code

Project:

WEB-BASED DIABETES PREDICTOR (DEPLOYED PROJECT)

Technologies: HTML, CSS, JavaScript, Python (Flask), Scikit-learn, Pickle

Description:

- Developed a machine learning–based diabetes prediction system with Flask as the backend
- Trained model using Scikit-learn and optimized deployment with Pickle.
- Designed a responsive frontend (HTML, CSS, JS) for user health data input.
- Integrated ML model with Flask for real-time predictions.
- Live Demo: https://avinash-diabetes-predictorwebapp.onrender.com/

AI CHATBOT APP (OFFLINE FAQS ANDROID APP)

Technologies: Kotlin, Android Studio, Jetpack Compose, Room Database

Description:

- Created an offline chatbot app for answering FAQs without internet dependency.
- Implemented Room Database to store and fetch Q&A locally.
- Designed responsive UI using Jetpack Compose for better user experience.
- Optimized query matching for fast and accurate responses.
